OUR WAY TO CHARITY FUNDS****£10,000 FUNDRAISING CHEQUE PRESENTED TO TEENAGE CANCER TRUST**

At a recent presentation held at the world renowned Royal Marsden Hospital in Sutton, Directors and staff of Parkers presented our partner charity Teenage Cancer Trust with an amazing sum collected by our intrepid staff.

Over the course of 2011 our staff have raised a whopping £10,000 for Teenage Cancer Trust following a year of fundraising events. Our big hearted employees completed dozens of sometimes gruelling and daring challenges to help support young cancer patients living across the South East. The funds will be used to help fund a new Teenage Cancer Trust unit at the Royal Marsden Hospital.

Stewart Pierce, Finance Director at Parker Building Supplies, said: "Our teams have run, walked, climbed, punched and parachuted their way to an excellent fundraising total and when you see the fantastic work of Teenage Cancer Trust, it has all been so worthwhile. The Trust works to give young people affected by cancer a normal life and access to the best possible care, and we are thrilled to be able to help in this life changing work.

"The new Teenage Cancer Trust unit at the Royal Marsden will be a stunning facility, tailor made for youngsters' needs, and it is great to know we have helped in a small way to maintain the work carried out there."

Louise Scott, Regional Fundraiser in East Sussex and Kent, said "With no Government funding, we could not do what we do without the amazing support of companies such as Parker Building Supplies. Their creativity, passion and generosity to support the charity has been inspirational".

Parkers' Operations Manager Phil White (left), Financial and Commercial Director Stewart Pierce (right) and other members of Parkers' staff present the cheque for £10,000 to TCT

Every day in the UK, six young people are told they have cancer. These young people often receive treatment in inappropriate facilities catering for children or the elderly. Teenage Cancer Trust focuses on the needs of teenagers and young adults with cancer by providing specialist units in NHS hospitals designed to give young people the very best chance of a positive outcome. As well as state-of-the-art facilities to keep patients occupied during long stays in hospital, the units provide an environment where young people can meet others in a similar situation.

Teenage Cancer Trust has built 18 units since 1990 and plans to build a further 15 so that all young people needing hospital treatment for cancer across the UK have access to the dedicated, specialist support they provide.

Parkers are proud to be involved with and to be of support to this inspirational charity.
